Index by subject matter (thematic review) Journal of Medical Ethics, volume 26, 2000

Editor's note
This combined index and thematic review was introduced in the hope that it would be more useful to readers than the old system. In the first part, papers, book reviews and letters are classified using the American National Reference Center for Bioethics Literature Library Classification Scheme (the Kennedy system), which is printed on page 497. In the second part, authors, reviewers, letter writers, papers, book reviews and letters are arranged alphabetically, with their Kennedy classification following.
